HERMIT IS FOUND DYING IN CAVE.

Daniel McGee, Aged Recluse, Succumbs to Paugs of Exposure and Starvation.

ASSISTANCE CAME TOO LATE.

When Ambulance Arrived at the Dugout Its Occupant Was Dead-Nothing of His History Known.

Daniel McGee, a recluse, who lived alone In a cave on the Wabash Railroad between Newstead and Taylor avenues, died of starvation and exposure while an ambu-City Hospital yesterday afternoon. When the vehicle backed up before the little dugout its sole occupant had breathed his last and the policeman sent in a summons for the dead wagon to convey the body to the

Little is known of the man, as he lived tact with any one in the neighborhood. Intact with any one in the neighborhood. Indeed, that portion of the city is sparsely
settled. The cave is a small dugont which
some one cut into the side of a bank alongside the railroad tracks. On either side of
the track there is a high bank, which the
graders left when they made an excavation for the road. In the front of the cave

there is a rough plank door, filing on leather hinges, which the owner put up years ago.

Some time ago, no one knows exactly when. MeGee went to live in the cave. Where he got his meals, or how, is not known. He probably begged and worked by turns, as the weather and his condition permitted. About 1 o'clock yesterday afternoon Policeman Smith of the Eighth District was notified that the occupant of the cave must be sick, as groans were heard coming from the cave. Smith went there and found the man lying on a bunk in the side of the cave. He was so weak he could starcely move his head. The man gave his name as Daniel Medice, He said he had had nothing to eat for three days.

When the body was piaced in a box at the Morgue it was found that it had wasted away until there was only a skeleton left. The cyes were shrunken and the check bones protruded prominently. An inquest will be held on the body to-day.

While he awaited the ambulance the officer tried to question McGee about himself, where he came from and if he had any relatives, but he was too weak to answer.

THREE COFFEE WRECKS.

Plain Facts Worth Considering.

For the past six years, up to twelve months ago, I was a perfect wreck and stays to coffee. It kept me in a prostrate! cardition continually condition continually.

Gradually my heart became affected, and

stave to coffee. It kept me in a prostrated condition continually.

Gradually my heart became affected, and I suffered intense pain in the left side and over the region of the heart.

Every now and then I had nervous spells that had me up for weeks at a time. I was also troubled with shortness of breath whenever I exerted myself in any way.

I could not lie on my left side and my sleet was broken with severe pains and amothering sensations. The doctor told me that it was coffee drinking.

I put myself under his treatment, but did not leave off the coffee, and as I obtained no help, became despondent and gloomy.

By chance I learned of the Postum Food Coffee, and concluded I would try and quit the coffee habit and use Postum. After a week's time I felt greatly improved, and continued using the Postum, and an still using it. My appetite returned to me and I gradually regained my health and strength, and am now as well and hearty as I ever was. I have had no return of my heart it ouble since using Postum.

I do not understand that Postum is in any way a medicine, but that it is a food, whereas the ordinary coffee is a very powerful drug, as shown in my case and many others.

Two of my near neighbors were addicted to coffee, and it treated them much as it, did me. They are Mrs. M. N. Powell and Mrs. Mary Pitts.

When they found what a change had been made in me by leaving off coffee and using Postum. The first time they tried it they did not like it very well, but they soon found that they had not allowed it to boil long enough. Now they are two as healthy ledies as you ever saw, rosy and well; their physical aches and ills all gone. They sleep and out well and seem to enjoy life better langthey ever did before. Don't Forget the Early Easter This Year...

We've remembered it in all our preparations, and the advance showing in all departments is very complete-and what is especially advantageous is that you can rely absolutely upon these arrivals as the correct styles for Spring of 1902. It is one thing to announce "Spring Styles" and another to tell you of correct fashions -one is easy, the other requires the nicest discrimination, a knowledge of what the best costumers are using, and what has received the cachet of approval of Dame Fashion herself, without which all else goes for naught. You have Barr's assurance of the correctness of all shown here.

The trend of fashion is toward clinging effects that fall softly, swathing the figure until the fabric falls in a billow of ruffles and frills around the feet. ANARCHIST LEADERS ARRESTED

Premier Sagasta Refuses to Discuss the Situation Before the House of Deputies Until Peace Is Restored.

Madrid, Feb. 22. The rists at Harcelona. were vigorously renewed this morning. Throughout the night the mob kept dispersing as troops appeared, but reassembled again when they had gone.

In other parts of the disturbed area there is some improvement. Anselmo Lorenzo, the director of an anarchist journal, and Miguel Mira, secretary of the anarchist club, have been arrested. Documents containing a list of all known active European

anarchists have been seized. The Captain General has ordered the newspapers to resume publication, but the directors reply that the compositors re-fuse to work. The strikers poured a fusi-lade upon the electric power-house of the city, but the troops drove them off. Transport for merchandlee destined for Barcelona has been refused at Port Bou, a scaport town in Gerona, on the Gulf of Lyons.

Ramanones, the Minister of Education, denied that twelve strikers were executed yesterday.

Prime Minister Sagasta refused to discuss the situation until order was restored.
